THURSDAY MORNING, APRIL 20.

METEOROLOGICAL.

INDICATIONS FOR THE NEXT TWENTY-FOUR

HOURS.

W. L. Walker, Baltimore, Dec. 1881.

For New England.

Partly cloudy weather and rain, southwest

to northwest winds, stationary or lower baromet-

er and temperature.

Cautionary signals from Smithville to East-

port.

[SPECIAL BULLETIN.]

The storm which was centered in Iowa Tuesday

morning has moved eastward and is now

centered over the Lake Ontario region. It is

expected to reach the coast of New England

on Friday, and will then move on to the

Atlantic coast. Winds in the upper Lake

region are westerly; in the other districts east-

of the Mississippi river they are from south to

west. Temperature has fallen from 7 to 15

degrees in the Lake region. In New England

and the South Atlantic and Gulf States there

has been a slight rise.

XIVth Congress—1st Session.

SENATE.

The Senate bill authorizing the President of

the United States in conjunction with the

State of Texas to run and mark the boundary

lines between a part of the territory of the

United States and Texas and to complete the

survey was passed by the Senate.

Mr. Fry remarked that the votes of the north-

western members against the appropriation

for the survey were not to be construed

as indicative of any hostility on their part and

as evidence of any opposition to the project.

The bill was passed by the Senate.
